

Benefits of attending an IIA SA course

The Institute of Internal Auditors SA (IIA SA) offers top-class training that will enlighten you on today's critical issues and best practices, is the only organisation that is dedicated to the internal audit profession and is at the forefront of internal audit research. As the market leader in internal auditing we are committed to identifying latest trends and developments to ensure we incorporate leading-edge thinking and best practices in all our training courses.

To ensure members fulfil their professional responsibilities in risk, control & governance the IIA SA has developed a range of comprehensive seminars which cater for internal auditors at various levels. Our expanding list of courses will shed light on topics you need to boost your career and keep it up there.

Trainers have extensive training and experience in the internal audit field which enables them to produce excellent programs, group discussions, case studies, practical applications, facilitator presentations and other interactive techniques. IIA SA courses in 2008 attracted over 1000 delegates enabling them to expand their knowledge. Their coming together to share knowledge and experiences of their internal audit environments have contributed to the professionalism of internal auditing.

Course funds are used to further the profession and attending IIA courses will promote and benefit internal auditing. We look forward to meeting you at our courses and appreciate your feedback on any of the courses.
